Add camera to input the picture (x-ray only)

1. Authentication

- Login Sign in using an email address and password.
- Register Create a new account by entering a name, email, phone number, and password.
- Forgot Password Reset the account password via email verification.
- Logout Securely sign out of the system.

- Terms & Privacy Users must accept the Terms of Service and Privacy Policy before creating an account.
- Remember Me Keep the user signed in on the device.

2. Navigation Bar

- GrowTH : Logo Return to the Dashboard.
- Dashboard : View the overall system summary.
- Knowledge Center : Browse educational articles and videos.
- Profile : View or edit account information and change password .
- Logout : Sign out of the account.
- Notification Icon
 - ◆ View Notifications : Display unread notifications.
 - ◆ Mark as Read : Mark notifications as read.
 - ◆ View All : Open notification page.
 - ◆ Clear All : Remove all notifications.

3. Dashboard

- Family Selection
 - ◆ Select Family : Switch between family profiles.
- Add Family
 - ◆ Add Family Button : Create a new family profile.
- Child Cards
 - ◆ Each Child Card displays
 - Child avatar
 - Child's name
 - Age
 - Gender
- Clickable Elements
 - ◆ Detail Button : View child profile.
 - ◆ Edit Button : Edit child information.
 - ◆ Delete Button : Delete child profile.
- Child Management
 - ◆ Add Child Button : Add a new child.
 - ◆ Switch Child Button : Switch to another child.
 - ◆ Edit Child Button : Edit child information.
 - ◆ Delete Child Button : Remove child profile.
- Notification Card
 - ◆ View Details : Open notification details.
 - ◆ Dismiss Notification : Remove notification from the list.

4. Child Profile

- Child Information
 - ◆ Edit Profile : Update child's information.
- Main shortcuts:
 - Bone Age Assessment
 - Puberty Check
 - Growth Tracking

→ Recent Activity

- ◆ View All : Display all activity history.

5. Bone Age Assessment : Access AI-based bone age analysis.

→ Upload X-ray

- ◆ Browse Files
- ◆ Drag & Drop Area
- ◆ Image Preview
- ◆ Remove Image : Remove uploaded image.

→ AI Prediction

- Analyze Button : Start AI analysis.
- Loading Indicator : Display AI processing status.

→ Bone Age Result

- ◆ View Result : Display predicted bone age.
- ◆ Explanation : Show AI interpretation.
- ◆ Download Report
- ◆ View History
- ◆ Medical Recommendation : Display recommendations based on AI analysis.

6. Puberty Check : Open the puberty assessment questionnaire.

→ Questionnaire

- ◆ Next Button : Go to the next question.
- ◆ Previous Button : Return to the previous question.
- ◆ Submit Button : Submit the assessment.

→ Assessment Result : Receive a preliminary assessment.

→ Recommendation : View personalized care recommendations.

→ History : Access previous assessment history.

→ Progress Timeline : Compare previous assessment results over time.

7. Growth Tracking : Open the child's growth monitoring page.

User can :

- Add Height
- Add Weight
- Select measurement date
- Measurement History
 - ◆ Edit Measurement
 - ◆ Delete Measurement
 - ◆ Save Measurement : Save the recorded data.

System displays :

- Growth Chart
 - ◆ Zoom Chart
 - ◆ View Data Point
- Height-for-age
- Weight-for-age
- BMI-for-age
- Percentile
- SDS

- Growth Summary

- Growth History

Growth Trend : Visualize growth progress over time using interactive charts.

8. Knowledge Center

- Articles

- ◆ Read More : Open the full article.

- Search : Search articles using keywords or categories.

- Category/Filter : Filter using keywords bone age, puberty, nutrition)

- Citation : Each article includes references to reliable medical sources.

9. Introduction Video :

- Click to watch an introduction to GrowTH.

- Play Button

- Pause Button

- Full Screen Button

- Volume Control

Tab 2

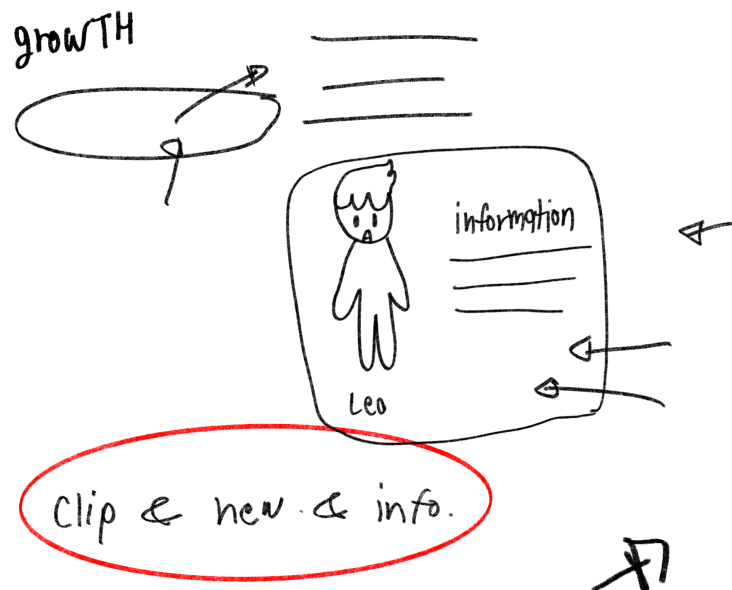

This part will be after “Goodmorning, Sarah “ before the video by that red circle area for child caregivers that need to take care if **more than 1 family** can select a family first then after that they will see the child in that family. The child’s card will show 1. 2D/3D child 2.short information 3.**detail** button and **edit** button

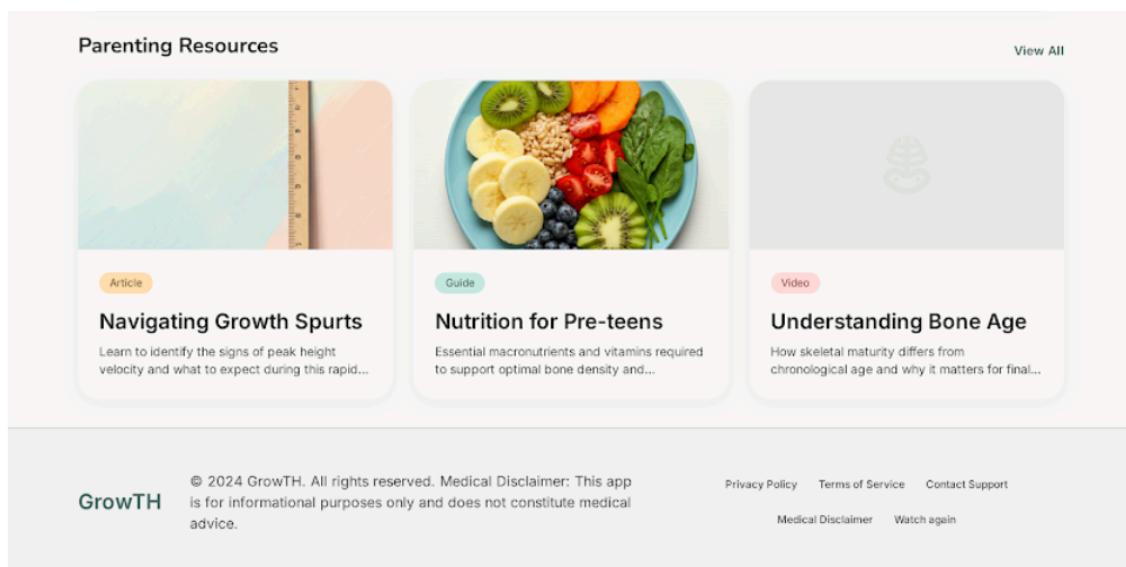

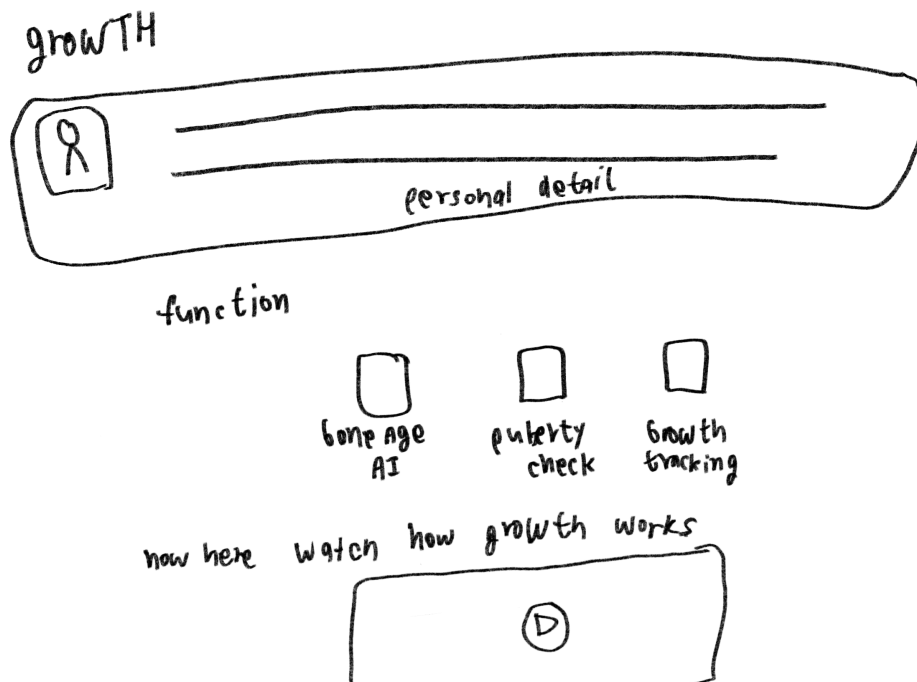

The web application will display one child card for each child in the family. For families with more than one child, multiple child cards will be shown. **The number of cards displayed depends on the number of children in the family**, and each card supports the **same functions and features independently for its respective child**.

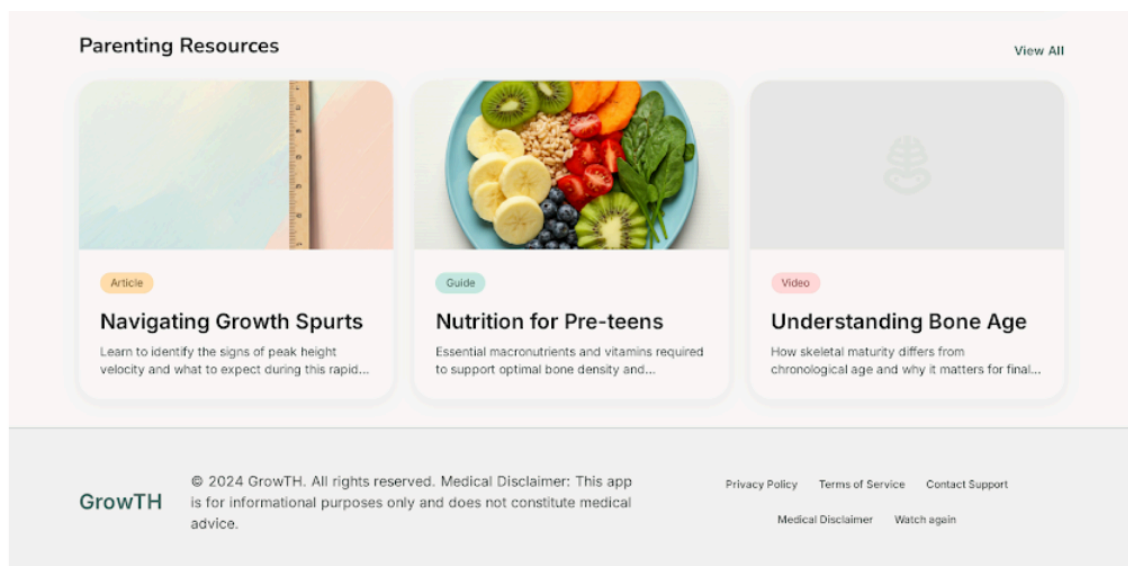

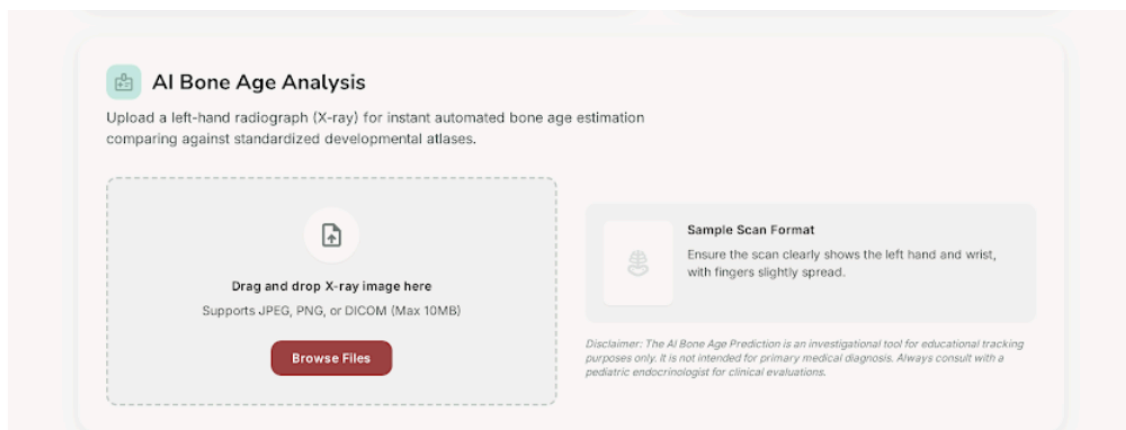

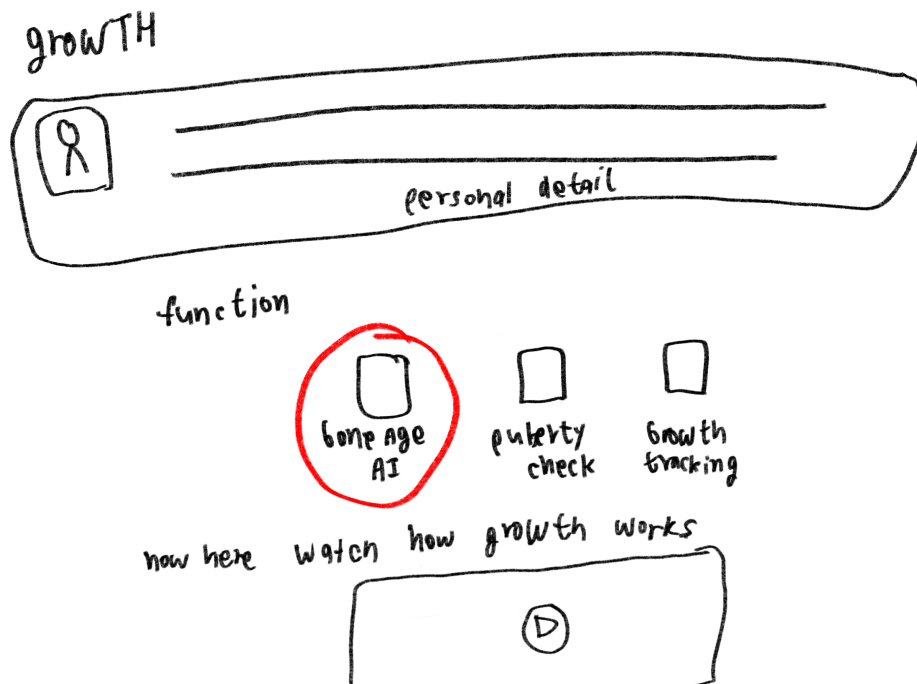

After this section, the page displays an Articles section. Each article is presented as a clickable card that users can select to read the full content. Every article also includes its information source or citation to ensure credibility.

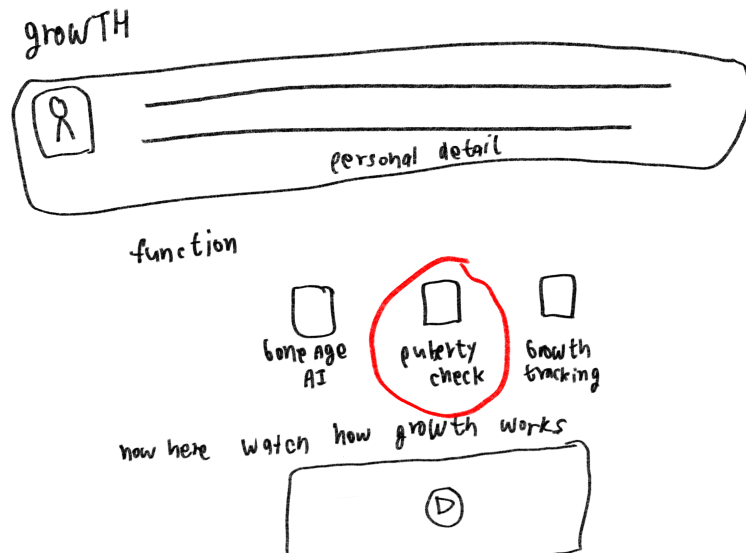

After selecting a child card, the system navigates to the child's profile page. This page first displays the **child's personal information**. Below the personal details is the main functions section, which provides access to **Bone Age Assessment**, **Puberty Check**, **Growth Tracking**. After the functions section, the page displays articles that can be selected to view the full content, along with the source citation for the information.

In this page user can select predict bone age ai function that can do:

After selecting the Bone Age Assessment function, the system navigates to the Bone Age page. Users can **upload a hand-and-wrist X-ray image** for AI-based bone age prediction. After the analysis is complete, the **estimated bone age and a brief explanation of the result** are displayed. Users can also **review previous bone age prediction records** for the selected child.

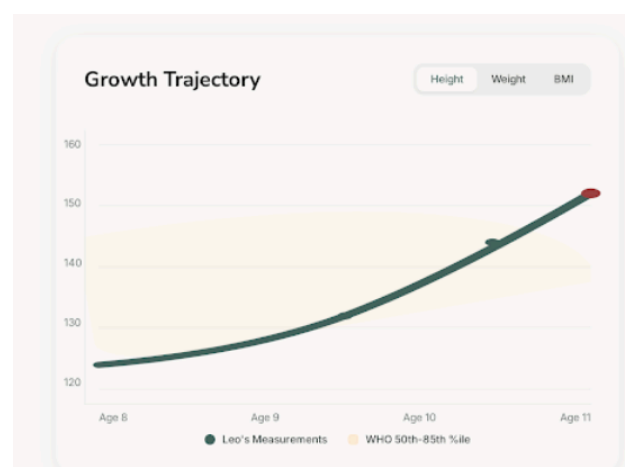

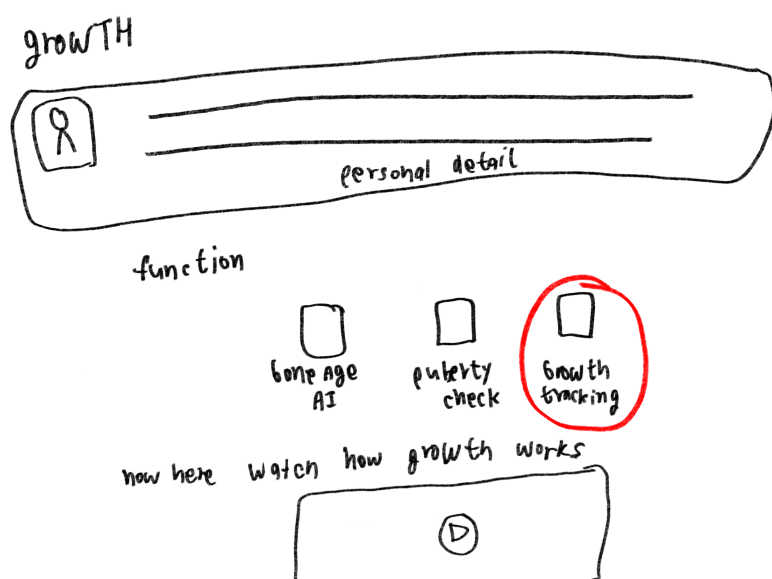

Puberty Screening On track

Tanner Stage Assessment

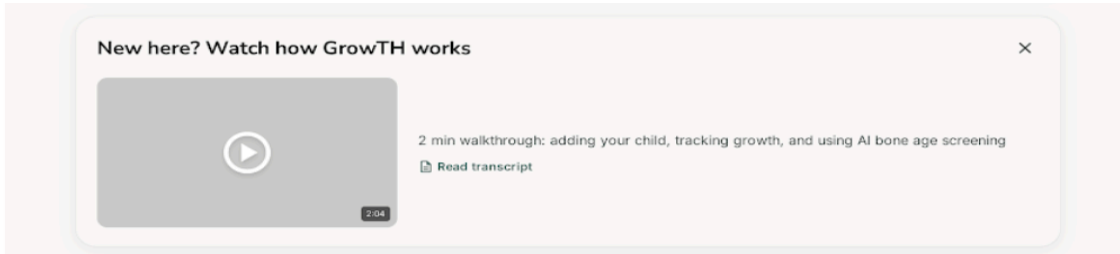

- ☒ **Stage 1: Pre-pubertal**
Completed at age 9.
- ☒ **Stage 2: Early Changes**
Growth acceleration noted. Testicular volume increased.
- ☐ **Stage 3: Active Puberty**
Current expected stage. Monitor for voice changes and peak height velocity.

[Continue Screening](#)

After selecting the Puberty Check function, the system navigates to the Puberty Check page. Users complete a **guided questionnaire** about the child's **physical development**, with **questions tailored to the child's age and sex**. After submission, the system **provides a preliminary screening result** along with **recommendations for the next steps**. Users can also review previous puberty screening records for the selected child.

After selecting the Growth Tracking function, the system navigates to the Growth Tracking page. Users can **record the child's height and weight measurements**, and the system **automatically analyzes the growth data**. The page displays **growth charts, percentile and standard deviation score (SDS), BMI-for-age (for children aged five years and above)**, and a simple summary of the child's growth status. Users can also review the complete history of previous growth records to monitor the child's development over time.

The features an introduction video that provides an overview of the GrowTH web application. Users can click the video card to watch the full introduction video directly on the website. The video explains the application's purpose, key features, and how it helps parents monitor their child's growth, puberty development, and bone age assessment.

Tab 3

รายละเอียดฟังก์ชันและการทำงาน (Interaction Guide) - GrowTH

เอกสารนี้ระบุการทำงานขององค์ประกอบต่างๆ ที่ผู้ใช้สามารถโต้ตอบได้ (Clickable Elements) ในระบบ GrowTH

1. ส่วนหัวของเว็บไซต์ (Navigation Bar)

- Logo (GrowTH):** เมื่อคลิกจะกลับสู่หน้าแรก (Home/Dashboard)
- Dashboard:** ลิงก์ไปยังหน้าสรุปภาพรวมข้อมูลสุขภาพของเด็ก
- Growth Tracking:** เข้าสู่ระบบบันทึกและติดตามการเจริญเติบโต (ส่วนสูง, น้ำหนัก)
- Puberty Screening:** เข้าสู่แบบประเมินและติดตามภาวะการเป็นหนุ่มสาวก่อนวัย
- AI Bone Age:** เข้าสู่ฟังก์ชันการวิเคราะห์อายุกระดูกด้วยภาพถ่าย X-ray
- Knowledge:** คลังบทความและวิดีโอให้ความรู้สำหรับผู้ปกครอง
- Icon กระดิ่ง (Notifications):** ดูรายการแจ้งเตือน เช่น นัดหมายแพทย์ หรือเมื่อผลวิเคราะห์ AI เสร็จสิ้น
- Icon โปรไฟล์ (Account):** จัดการข้อมูลส่วนตัว ตั้งค่าบัญชี และสลับโปรไฟล์เด็ก
- ปุ่ม Sign In / Add Measurement:** ปุ่มดำเนินการหลักสำหรับเข้าสู่ระบบหรือเริ่มบันทึกข้อมูลใหม่ทันที

2. หน้าแดชบอร์ดหลัก (Dashboard Elements)

- ปุ่ม Log new measurement:** ทางลัดสำหรับบันทึกค่าน้ำหนักและส่วนสูงล่าสุด
- Video Playback:** คลิกเพื่อดูวิดีโอแนะนำการใช้งานระบบ
- Quick Stats Cards (Height, Weight, BMI):**
 - คลิกที่กราฟจั่ว เพื่อดูรายละเอียดการเปลี่ยนแปลงเชิงลึก
 - ดูสถานะปัจจุบันเทียบกับเกณฑ์มาตรฐาน (เช่น Healthy weight range)
- Growth Trajectory Graph:** คลิกเพื่อขยายดูกราฟขนาดใหญ่ และสลับมุมมองระหว่างส่วนสูง, น้ำหนัก และ BMI
- Puberty Screening Card:** คลิก "Continue Screening" เพื่อทำแบบประเมินต่อจากที่ค้างไว้ หรือเริ่มการประเมินใหม่
- AI Bone Age Analysis:**
 - ปุ่ม Browse Files / Upload: คลิกเพื่อเลือกรูปภาพ X-ray จากอุปกรณ์
 - พื้นที่ Drag and Drop: ลากไฟล์มาวางเพื่ออัปโหลดทันที

3. ส่วนความรู้และทรัพยากร (Parenting Resources)

- Article Cards:** คลิกที่การ์ดบทความเพื่ออ่านเนื้อหาฉบับเต็ม
- Video Cards:** คลิกเพื่อเปิดเล่นวิดีโอให้ความรู้
- View All:** ดูรายการบทความและสื่อการเรียนรู้ทั้งหมดในระบบ

4. ส่วนท้ายของเว็บไซต์ (Footer)

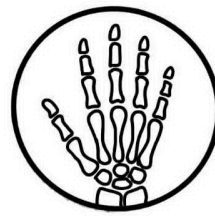

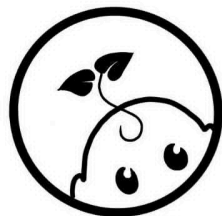

- Privacy Policy:** อ่านนโยบายความเป็นส่วนตัวและการคุ้มครองข้อมูลสุขภาพ
- Terms of Service:** ข้อกำหนดและเงื่อนไขการใช้งานระบบ
- Contact Support:** ติดต่อทีมงานเมื่อพบปัญหาการใช้งาน
- Medical Disclaimer:** ข้อความปฏิเสธความรับผิดชอบทางการแพทย์ (เน้นย้ำว่าระบบเป็นการติดตามเบื้องต้น ไม่ใช้การวินิจฉัยโดยแพทย์)

หมายเหตุ: ทุกส่วนถูกออกแบบมาให้รองรับการสัมผัส (Touch-friendly) บนอุปกรณ์เคลื่อนที่ตามมาตรฐาน Responsive Design
